**Subject:** Status of Dimock GW Site

All,

Our branch has been actively involved with the sampling plan for the Dimock GW Site (Marcellus Shale residential well sampling). For those of you working on this, thank you very much for your time and energy in meeting the demands of this project! Here's a status for everyone.

Note: All documents are stored in ASQAB\_AT/Special Projects/Marcellus Shale/Dimock.

#### **Ex. 5 - Deliberative**

We have finalized the parameter list and have labs assigned. Here is a link to that table [attachment "Shortcut to Dimock Parameters and Labs Jan06 2012.xlsx.Ink" deleted by Fred Foreman/ESC/R3/USEPA/US]

An analytical request form is in progress but has not officially been submitted for Kevin to route.

**Ex. 5 - Deliberative**

**Ex. 5 - Deliberative**

To help track our efforts we have a summary report. Here is a link to that summary. [attachment "Shortcut to Dimock Groundwater Site\_Lab Efforts Summary\_Jan 06 2012.docx.lnk" deleted by Fred Foreman/ESC/R3/USEPA/US]

Analytical work will be done by three Regions (R2, R3, and R9), NAREL (rad work), and commercial labs (Tier 4 - micro and Isotech methods).
